19,5

Once upon a time, high above the world, up in the sky, there lived a Little Star. She was very much admired by everybody. She was quite happy, but something happened and she felt it. The Milkyway crashed and she was flying on the Earth where all people had gone. After arriving she was looking around and saw desolate space of USA. A car had stopped, houses had fallen and only different animals such as mouse, square, sheep, cow, dog and cat were hanging out with themselves. It was sad picture and a Little Star was coming to another planet called Titan. On this planet a Little Star founded the new kind of human called Eternals. The Eternals had been upgraded version of human. They had a modern civilization and a Little Star from a different galaxy made decision to stay with Eternals. She would try them to save their world of destruction.

$$7 + 1 + 2 + 2 + 2 = 145.$$

215.

Once upon a time, high above the World, up in the Sky, there lived a Little Star. She was very much admired by everybody. She was quite happy, but she always feels so lonely. Her sisters didn't talk with her, because she was so far, so she looked to earth and thought "How people live on this planet? What are they feeling?" And in one of a usual days earthquake took place under her, so she fell from sky on earth.

She got up in early morning. Before that day she didn't know about days, afternoons and etc. And she couldn't describe this amazing views. She in the first time looked how sun waked up, she heard how birds sang their songs and how people talk with each other.

Suddenly, she heard that person said hello for her. She was surprised, when she understood that she looked like woman and told the same. "Hi, what's your name?" asked the man, who came a minute ago. "Oh... I'm afraid you would not believe me, but I haven't name, I'm star!" answered the Star. "So well, we came back you in to Sky, but how?" "My mum said, if I fell on earth, I won't ^{come} ~~at~~ back."

And she ~~am~~ ^bimagined a new name, and still live on earth with her husband.

$$8 + 2 + 2 + 2 + 2 = 160.$$
